Summary

Frontend Developer with proven expertise in React and React Native, skilled in converting design into high-performing code. Experienced in delivering responsive web and mobile applications while collaborating in agile environments. Eager to leverage full-stack development skills in ReactJS and Elysia.js to enhance customer experience platforms in a remote setting. Specializing in building cross-platform Android/iOS and Web application

Skills

- **Frontend:** React, React Native, Expo, Next.js, Angular, Android Kotlin, IONIC, iOS development, Android development
- **Backend:** Elysia.js, Prisma
- **Framework CSS:** CSS, CSS3, Tailwind CSS, Gluestack, Tamagui, Chakra, MUI, Bootstrap, Shadcn
- **Language:** TypeScript, Javascript, HTML, HTML5, ES6+
- **Database:** MMKV, Realm, Asyncstorage, localStorage, Firebase, PostgreSQL, Rest APIs, SQLite
- **State Management:** Zustand, Redux, React Hooks
- **DevOps and Version Control:** Git version control, Git CI/CD pipeline
- **Methodologies:** Agile methodology, Scrum
- **Development Tools:** Jest, npm Libraries, Bun, Node.js, React Query
- **Integration:** Google Maps API, Mapbox, Firebase SDK
- **Deployment:** Vercel, Railway, Docker, Zeabur, Google Play Console
- **Optimization:** Mobile optimization, Responsive Design
- **AI Tools:** ChatGPT, deepSeek, Github Copilot, Claude
- **Remote Worker:** 2022 - recently

Work Experience

Abersoft

Nov 2024 - May 2025

Mobile Developer

Swedia (Remote)

- Engineered modules in the Venga app, optimizing performance and scalability in a manner consistent with modern React Native component design.
- Addressed and resolved complaints, bugs, and errors, enhancing application reliability and user satisfaction
- Planned and presented project progress using Nextjs and React Native (Expo), recommending improvements and removals to optimize app functionality

Inspiro

Mar 2024 - Oct 2024

Mobile Developer

Indonesia (Remote)

- Engineered modules in the Pruforce Pulse app using Agile methodologies, optimizing performance and scalability in a manner consistent with modern React component design.
- Diagnosed and resolved issues in both existing and new modules while maintaining accurate version control with Git.
- Collaborated with vendors to extend functionality using React Native, demonstrating skills transferable to React applications in full-stack development.

- Delivered robust, high-quality code for iOS and Android platforms with a focus on performance optimization and adherence to mobile best practices.

DigitSense Ltd

Mobile Developer

Jan 2022 - May 2023

Hongkong (Remote)

- Constructed the Myrlabs app using React Native to ensure cross-platform functionality and responsive design.
- Conducted thorough client requirement analyses and provided actionable recommendations, aligning with Agile methodologies for iterative development.
- Successfully integrate with Google Maps API, Text-to-Speech feature, Speech-to-Text feature, and Spatial Audio feature to guide user
- Performed comprehensive testing and documentation to ensure application reliability, incorporating unit testing practices with tools like Jest.

PT Truckking Lintas Sarana

Mobile Developer

Mar 2020 - Dec 2021

Indonesia (Hybrid)

- Build TruckkingDriver app to track and monitor status updates when the driver delivers the package (version 1 & version 2).
- Pair Programmer to build Truckking web based application and Vendor Management System web based.
- Trained truck drivers and operations staff on app usage, including what to do and what not to do, collected feedback on bugs/errors, and resolved issues to improve app reliability

Pertamina University

Programmer

Jun 2019 - Feb 2020

Indonesia (Onsite)

- Developed the MONAS (Monitoring Asset) application for Android using Ionic Framework, enhancing asset tracking capabilities
- Created an Employee Attendance Application with a Face Recognition feature using Angular.js, Express, PostgreSQL. Improving attendance accuracy and efficiency
- Facilitated the adoption of the MONAS application by training office staff, improving user engagement and application usage.
- Addressed and resolved complaints, bugs, and errors using Jest for testing, enhancing application reliability and user satisfaction

Education

Gunadarma University

Bachelor, Informatics Engineering

Sep 2013 - Sep 2017

Projects

Colombo AI

Founder Mobile Developer

Dec 2024 - Mar 2025

United States

- As a Mobile Developer Founder, i set all projects structure, what tech to build, what libraries to use, how to improve, everything.
- Develop, Testing, and fixing all features and scenario from scratch ColomboAI for Mobile

LebahBiru

Mobile Developer

Jan 2023 - Jan 2024

Indonesia

- Analyze, Build, improve, fix bug e-commerce mobile applications.
- Build e-commerce web based (<https://lebahbiru.co.id>)
- Build Web Admin for LebahBiru web app and applications

Wxstkxx*Mobile Developer*

- Analyze, Build, improve, fix bug e-commerce mobile applications.

Jan 2023*Hongkong***PT Aprada Multi Energi***Fullstack Developer*

- Build Company Profile Website
- Setup email for employees

Jan 2023*Indonesia***PT. Gahar Herba Natura Indonesia***Mobile Developer*

- Analyze, Build, improvement, fix bug Ghani Mobile application
- Dedicated to writing high-quality, maintainable code

Jan 2023*Indonesia***PT. Teknologi Belanja Utama***Frontend Developer*

- Analyze, Build, Improve, fix bug JabulMart application. (Android based)
- Build Landing page Web based (<https://jabulmart.id>)

Jan 2023 - Jun 2023*Indonesia***Website Portfolio***Frontend Developer*

- Build Website for my own portfolio

Jan 2023*Me*
